### MICRONEEDLING/COLLAGEN INDUCTION THERAPY

Microneedling helps to reduce wrinkles, fine lines, pigmentation, acne, scarring, and stretch marks. Microneedling increases the production of collagen and other healing factors by causing microscopic trauma to the skin. Collagen is an essential protein that helps the skin in looking youthful by increasing firmness, smoothness, and elasticity!

Microneedling is a popular procedure using tiny needle pricks to treat acne scars, wrinkles, large pores, and more. It's minimally invasive and NO DOWNTIME!

Microneedling is a quick and virtually painless procedure that will give you smoother, firmer, and younger looking skin.

Full face (4 treatments - R4 000)	R1 100
Face & neck (4 treatments - R4 600)	R1 300
